

Manufacturer Declaration

Availability of Sunny Island and Multicluster-Box

The company SMA Solar Technology AG develops, produces and sells Sunny Island battery inverters, Multicluster-Boxes and Sunny Island Charger for different applications.

Already during the development process of the products, only components are used which guarantee the fulfillment of the aimed service life of the devices of at least 20 years. Furthermore, SMA carries out further quality assurance measures in extensive field tests and in the current series during the development process.

Moreover, the high product quality is expressed via the standard 5-year SMA product warranty.

If you have any questions about the device warranty or technical problems concerning the Sunny Island and Multicluster-Box, contact our SMA Service Line. You can reach us by telephone under +49 561 9522-399.
