

## SunSpec Certified Rapid Shutdown Devices

### Overview of approved SMA inverters with SunSpec Certified Rapid Shutdown Receivers

The following overview provides a list of SMA inverters that have been verified for compatibility with the following SunSpec Certified Rapid Shutdown devices (device type).

Inverter type	Device model:	Manufacturer	Comment
SB3.0-1SP-US-41	JMS-F	JMTHY	<ul style="list-style-type: none"> <li>Maximum PV module voltage of: 60 V</li> </ul>
SB3.8-1SP-US-41	RSD-S-PLC	APsmart	<ul style="list-style-type: none"> <li>The Sunny Boy US-41 series inverters are only compatible with RSD-S-PLC devices with article number 41500x.</li> </ul>
SB5.0-1SP-US-41			
SB6.0-1SP-US-41			
SB7.0-1SP-US-41	RSD-D-15	APsmart	
SB7.7-1SP-US-41	RSD-D-20	APsmart	
STP 50-US-41	JMS-F	JMTHY	<ul style="list-style-type: none"> <li>Maximum PV module voltage of: 60 V</li> </ul>
STP 33-US-41	RSD-S-PLC	APsmart	<ul style="list-style-type: none"> <li>The inverters of the STP-US-41 series are only compatible with certified RSD-S-PLC devices with item number 41500x.</li> </ul>
STP 62-US-41
